

Promethean®

# ActivInspire®

Collaborative Lesson Delivery Software  
for Interactive Displays

## Create and Deliver Dynamic Lessons

### Deliver Interactive Lessons

ActivInspire's intuitive dashboard and vast suite of award-winning lesson creation tools are purposefully designed for teachers to engage students with compelling content.

### Leverage Existing Resources

Teachers can easily import their existing resources, such as PowerPoint slides and PDFs, and embed multimedia files.

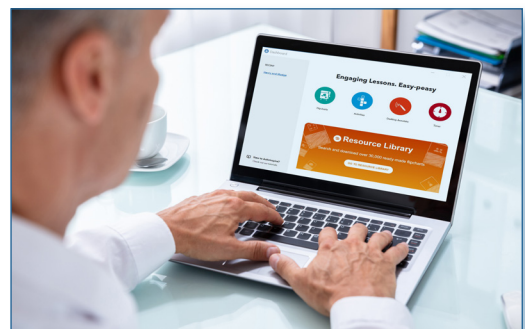

### Enhance Student Engagement

Encourage student collaboration at the front of the class with multi-touch functionality and unique engagement features like interactive activities, Spotlight, and more.

### Download on Your Platform

Now optimised for 4K panel experiences, ActivInspire is available for download on Windows®, Mac®, and Linux® operating systems.

### Discover the myPromethean Resource Library

Lesson engagement is just a few clicks away. The myPromethean Resource Library provides ActivInspire users with access to over 30,000 free Flipcharts that have been created by teachers, for teachers. Teachers can easily search, filter, preview, and download Flipcharts – saving valuable lesson preparation time.
